DETAILED ACTION

Claims 1-16 are pending. Drawings, (4) sheets were filed with the application.

Priority

Copies of the foreign priority documents have not been received.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1,4,7,9,12,15, drawn to compounds, classified in class 546, subclass 75.
- II. Claims 2,6,10,14, drawn to compounds, classified in class 546, subclass 48.
- III. Claims 3,5,8,11,13,16, drawn to compounds, classified in class 546, subclass 42.

The inventions are distinct, each from the other because of the following reasons:

Each of groups I-III are distinct as they encompass a plurality of independent and distinct inventions where two or more members are so unrelated and diverse that a prior art reference anticipating the claim with respect to one of the members would not render the other member(s) obvious under 35 U.S.C. 103.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
